

MVDIT

TECH BOOK

EDITORIAL

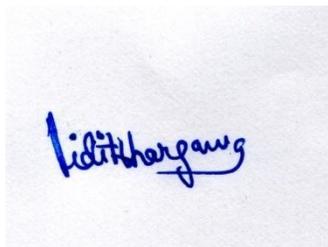

It is my pleasure to present to you the tenth edition of my magazine to you.

The magazine has been quite popular among the students and teachers at Manav Sthali School, since its launch online.

The magazine presents news and reviews on latest Information Technology written by me and my friends. Our focus is all kinds of technology be it in computers, mobiles, games, cars. Everything Technical goes in here.

The different editions for magazines are available for download at www.mvdittechbook.co.nr in a pdf format.

Suggestions are welcome for the improvement of the magazine.

IN THE LIMELIGHT

Apple iPhone 3G

Vidit Bhargava

The new Apple iPhone 3G was launched at the WWDC conference on June 10 2008.

The new phone will be launched on July 11 2008 in 22 Countries and later in 70 countries including India. In India the new iPhone will be launched in mid-October. The iPhone 3G has a brilliant app store for 3rd Party applications.

iPhone 3G has improved in many ways but the main feature that makes it different from the earlier phone is the 3G internet.

iPhone's 3G has a much faster internet than the earlier phone.

Apple has introduced colors for this phone. One is Black and a white back is also available for 16 GB users.

The back body is made of plastic material. The earlier one had an aluminum body

Apple will be introducing the iPhone all around the world at just \$199. That's bad luck for those who bought it at \$ 299.

In India the iPhone will be launched by two service providers, Airtel and Vodafone.

Though the price of iPhone has been reduced but you'll have to pay more to the service providers.

TECH BOOK TIMES

Hydrogen Honda

HONDA Launches Its new car that runs on Hydrogen. It will come in India in early 2009. The Car is the only vehicle on road that runs on Hydrogen Gas.

iPhone 3G in India

Apple will be launching the new iPhone 3G in India by two operators Airtel And Vodafone by mid-October. At Rs. 8500.

Love Story 2050 hits theaters this month.

Love Story 2050 hits theaters this month but there is a mixed response by the audience.

ASIMO'S DIARY

20th July 2008

Hi I am ASIMO the robot made by Honda Inc. Do you know how old I am? I am 8 years old. I love walking with humans. My best friends are ACTROID, HUBO and QRIO. In our friends group QRIO is the youngest he is just 2 years old. AIBO is our pet dog. We all go to walk with our friend who is an actual human. He's our boss! I was created by Honda, QRIO was created by Sony, KAIST had designed HUBO and OSAKA University designed ACTROID. HUBO looks like Einstein and he is very intelligent. I'll show you our group photo!

HONDA FCX Clarity

In developing the FCX Clarity, Honda has managed to strike the perfect balance between futuristic technology and the very human desire for a thrilling ride. The result amounts to zero emissions and maximum driving experience.

Yes, the FCX Clarity is the car of the future, but it's ready for the road this summer.

Shaping Standards

This dynamic full-cabin sedan was designed to set the sedan standard for the next century. The aggressive front end features a 6-sided grille and the whole package is wrapped up in a sophisticated, rich color we call Star Garnet Metallic.

Back to the Future

Even from the rear, this vehicle commands attention. Elegantly tapered passenger cabin lines complement the accentuated fender flares. A high center slopes down lower at the fenders. And in the back you'll find an under-trunk storage well, offering a convenient place to store valuables away from prying eyes. Honda adds another first with the addition of refractive rear privacy glass on part of the trunk, which adds to driver visibility through the rear view.

Source: Internet

The image features two soccer players in Manchester United kits standing on a grassy field under a cloudy sky. The player on the left is looking towards the camera, while the player on the right is looking slightly to the side. A soccer ball is on the ground near the player on the left. The text is overlaid on the image.

FIFA 08

The Ultimate Game

Rating: ★★★★★

FIFA 2008 is a great game when it comes to the graphics and the gameplay.

The game is for both casual and hard core gamers. Apart from that it also has the best of the graphics. You can really not find much difference in the real faces and the virtual ones.

The Be-a-pro co-op season is awesome. The zone play is also good. And the new manager mode is also good.

**Sure it's sensible, but in an extremely
luxurious sort of way.**

The exquisitely designed, German engineered Jetta. Prestige standard.

Unbelievable, but true. In the Jetta you will experience a superlative DSG gearbox, excellent fuel efficiency and the safety of 8 airbags, all happily married to luxurious leather seats and an excessive 10 speaker stereo. It is a sensible choice. For those who enjoy luxury.

Volkswagen. Das Auto.

• 1.9L TDI 77 kW (105 PS) diesel engine • 6-speed automatic DSG gearbox with paddle shift • Cruise control • 8 airbags • ABS & ESP • 6-disc MP3 CD changer with 10 speakers • "Vienna" leather upholstery • 16" alloy wheels • Steering wheel with controls for multi-function display and audio system • "Climatronic" auto air conditioner with 2-zone temperature control • Deluxe sports seats with electrically adjustable lumbar support at front • Rain sensor • Anti-theft warning system • "Coming home" and "leaving home" function • Also available 1.6L 75 kW (102 PS) petrol engine • 1.9L TDI also available with 5-speed manual gearbox. Features mentioned here are not available in all versions.

Authorised dealers: Bangalore - Elite Motors: (080) 25743225 / 27, 9972922144; Chandigarh - Genuss Motors: 9915752640, 9915011608; Delhi / NCR - DD Autoworld: (011) 46664666, Kashyap Group: (0120) 2462601-5, (011) 26848377 / 78; Hyderabad - Orion Motors: 9704455011, 9701670008; Ludhiana - Prestige Motors: 9780199999, 9988886645 / 48; Mumbai - Presidential Cars: (022) 24364801-6, 9930250733
Opening shortly at Ahmedabad, Chennai, Cochin, Jaipur, Kolkata and Pune.

Ricky Ponting International Cricket

Rating: ★★☆☆

Ricky Ponting International Cricket 07 was expected to be much better than its predecessor. The new game has fully licensed ICC World Cup and Champions Trophy. The game is one of those good games that is neither awesome nor awful.

It's a good game with good game play with an Ok graphics engine. It hasn't got player likenesses. That's the only thing that takes away the gaming experience from the game. The players don't look good either.

The ICC Cricket World Cup and the Champions trophy are good it's fun to play them.

The game is brilliant but the controls are not that good.

On the whole the game is brilliant but the graphics take away the fun plus they need to fix the bugs.

Vidit Bhargava

Rating: ★★★★★

Thoda Pyaar Thoda Magic is a children's fantasy movie and thus there is a lot of animation involved. The movie casts Rani Mukherji and Saif Ali Khan in lead role. The movie is a story about four kids to whom an angel arrives and makes their life a fun. The kids need love as they had lost their parents in an accident.

The animation included in the movie is awesome! You'll just love it.

Sony Cyber Shot T2

The Sony DSC-T2 features an eight-megapixel sensor which is coupled to an internal Carl Zeiss Vario-Tessar branded 3x optical zoom lens and a 2.7-inch touch panel LCD display. The DSC-T2's 38 to 114mm equivalent lens incorporates Sony's Super SteadyShot optical image stabilization to minimize blur caused by camera shake at slow shutter speeds. The lens is protected by a sliding cover which nicely retracts flush with the surface of the camera body when closed, making the T2 more pocket-friendly. Other T2 features include ISO sensitivity to a maximum of ISO 3,200, a Memory Stick Duo/PRO Duo card slot plus a truly whopping 4GB of built in memory, and power from a proprietary NP-BD1 InfoLithium rechargeable battery.

The Sony T2 also offers USB 2.0 Hi-speed connectivity for connection to a personal computer, and high definition component video connectivity for viewing on the latest HD televisions. The Sony Cybershot T2 also includes Sony's face detection technology, which is linked not only to the camera's autoexposure and autofocus systems as in most similar systems, but also to white balance and flash metering as well -- allowing the T2 to ensure proper flash exposure and pleasing flesh tones. Also included is Sony's "Smile Shutter," which detects when a subject is smiling and

automatically captures the photo without pressing the shutter button.

The Sony Cyber-shot DSC-T2 ships from December 2007 priced at U.S. \$350, and is available in blue, green, pink, white, or black, with matching case colors available separately.
