# Meet A.R Rahman

Mudit Bhargava

He has made our country proud to we don't only salute this great musician but are also proud to listen his songs. The Indian films are known by their music and dance every film has them but in the past few years Indian music hasn't come in competition with the popularity of the songs of Guns N Roses, Metallica, Britney Spears. Moreover, today's Indian Youngsters also dislike the Indian music but every cloud has a silver lining and here

the silver lining is the music of A.R Rahman who hasn't only excelled In Indian Music but made the country proud by composing music for the whole world.

In 2008 February, Rahman composed the UN Anthem known as 'Pray For Me Brother' this song is not only popular in India and the US but is amongst the best compositions made ever. Later In December this year Rahman was nominated for a golden globe for his soundtrack in the film 'Slumdog Millionaire'. This year he had also composed many great songs for the Indian Film Industry as well, with over 5 hit albums this year Rahman was honored the best musician 2008 by Mint. Many composers have given Rahman a competition but have never been as consistent as him. If you know the album is composed by him then you're sure it's going to be hit worldwide.

With an experience of over 20 years and after given so many worldwide hits, Rahman has become the master of his business. No critic can ever say he has given a bad or mediocre music.
